

KELSEY RIANO

COMPUTER ENGINEERING

Technological Institute of the Philippines (TIP) M

Address: 2234 Vitas St. Brgy. 96 Zone 8 District 1 Tondo, Manila

Email Address: kelseyriano8@gmail.com

Cellular No.: +639273322642

CAREER OBJECTIVE

Motivated Computer Engineering Graduate seeking an entry-level position where I can apply my technical skills in programming, networking, and system troubleshooting while contributing to this amazing company.

DESIGN PROJECTS COMPLETED/ RESEARCHES

WebSched: An automatic Schedule creation website

A website where users can create and manage schedules. It uses React for the frontend along with Vite as the development and build tool. The backend uses Node.js and Django depending on the service or feature.

HARBEE: A Design of an Automated Moving-Frame Honey Harvesting System with user interface and status notification

A research project designed to help Filipino beekeepers by providing an affordable, climate-resilient, and automated honey harvesting system.

WebPrint: A Web-Based Approach for print and delivery-on-demand

A web app where users can upload files for printing and delivery. Built with HTML, CSS, JavaScript, and Flask, it connects to a MySQL database hosted on PythonAnywhere.

WORK EXPERIENCE

- Web Developer (Freelance) - Php 45,000.00
Shojiki Trading
Gold Commercial Complex Anabu I-A Imus, Cavite
August 19, 2024 - September 20, 2025
 - Developed and maintained a WordPress website with customized themes, plugin integration, and content updates.
 - Handled troubleshooting, performance optimization, security updates, and direct client communication to deliver revisions.

KNOWLEDGE, SKILLS AND ATTITUDE

Having graduated from TIP with its orientation towards outcome-based education, I have acquired and can demonstrate the following student acquire outcomes (knowledge, skills and attitudes) necessary to the practice of the computing profession:

- Analyze complex problems and identify and define the computing requirements appropriate for solution.
- Use modern techniques and tools of the computing practice in complex activities.
- Understand professional, ethical, legal, security and social issues and responsibilities relevant to professional computing.

Technical Skills:

- Programming Languages: Python, C++
- Web Development: React.js, HTML5, CSS3
- Embedded Systems & IoT: Arduino, ESP32
- Version Control: Git, GitHub
- Machine Learning: Machine Learning Fundamentals (data preprocessing, basic model training)
- Networking: Networking Fundamentals (IP addressing, VLANs, routing basics)

Soft skills:

- Critical Thinking
- Team Player
- Problem-Solving
- Adaptability
- Communication Skills

SEMINARS AND TRAININGS ATTENDED

- Large Language Model/ Machine Learning
PC 05 SR-IOI Technological Institute of the Philippines - Manila
Campus June 19, 2025
- Into The Cloud
Seminar Room Technological Institute of the Philippines - Arlegui
Campus June 28, 2025
- Codebuild Pocket Edition
Seminar Room Technological Institute of the Philippines - Arlegui
Campus July 08, 2025

EXTRA AND CO-CURRICULAR ENGAGEMENTS AND VOLUNTEER WORKS

- The Helping Hands, Assistant
March 13, 2023
- EoS, Leader
October 22, 2025

CERTIFICATIONS

Cisco Networking & Security (Certified Training):

- CCNAv7 – Introduction to Networks
- CCNAv7 – Switching, Routing, and Wireless Essentials
- Endpoint Security
- Network Defense
